ProLine element  
with electrically heated barbecue grill

CS 1312 BG (installation drawing)

Installation note: Allow sufficient space below the electric barbecue for drainage of water into a suitable container. The clearance between the electric barbecue and a Miele overhead rangehood must be no less than 65 cm. Recirculating rangehood operation above an electric barbecue is not recommended.

- 1) Front
- 2) Height for building in
- 3) Mains connection box with cable, 2000 mm long
- 4) Drainage valve
